Pregnancy Towers-- Month by Month

You and your group will construct a pregnancy tower out of large index cards. Each index card will tell us about pregnancy and fetal development for a specific month. On each index card you will include the following information:
- Month #
- Size of Baby in relation to something common or actual measurement
- What's happening developmentally with baby during this month (need at least 5 facts)
- What changes and discomforts is mom experiencing during this month
- Picture of baby during this month

RESOURCES:
- Chart given to you
