SOP Toolkit

About the Toolkit

The Safety Organized Practice (SOP) Toolkit is a comprehensive online resource for practice, implementation, and sustainability of SOP. The Toolkit contains dozens of tools for social workers, supervisors, agency leaders and organizations to support planning, implementation, practice, supervision and fidelity of SOP.

The Toolkit was developed by California's SOP Backbone Committee, with members from the Regional Training Academies (RTAs), CDSS, Casey Family Programs, CalSWEC and county representatives from each region. The RTAs provide SOP training, coaching and technical assistance in their regions, which includes support for how counties can best use the SOP Toolkit.
