My Story

I was born in Minnesota and have lived here my entire life, but I have traveled to different places and studied other languages. In Europe, I have traveled to the UK, the Netherlands, France, Switzerland, and Germany. I have also been to Asia - Japan. I still have so many places in the world to visit! As for languages, I studied Spanish in Jr. High, but I don't remember much. I tried German for one trimester in high school, but my main foreign language was FRENCH. I studied French for five years. At one time, I wanted to be a French teacher. Now I'm an ESL teacher, so I get to meet people from all over the world who speak many different languages. I'm so lucky!
