

POTATOES...

- Are originally from Peru, but are now grown all over the world.

- Come in over 4,000 varieties!
(How many have you eaten?)

- Are in the nightshade family with tomatoes, eggplants, and peppers.

- Are the WORLD'S 4th largest crop. What are the first 3?

- Are high in carbohydrates.

- Are very popular. The average person eats **73** pounds of potatoes each year!
