

Icon Design.

Can you tell a whole story about your app in the space of an icon? Draw a picture that captures the essence of your app in the icon square. A great icon can be recognized at any size. Once you have your design, try to draw it again in the tiny square to see how it will look on a small screen.

Before you begin designing make the color palette of your app by choosing three colors you will use throughout your app and on your icon!
