

Manuel Lua, M.S., M.F.T., has worked with families involved with residential, foster care, probation, and county mental health services for more than 20 years. He is the regional director for Victor Community Support, Victor Treatment Center and North Valley Schools. His expertise includes Early and Periodic Screening, Diagnostic, and Treatment mental health services for foster children up to age 18, Wraparound/Wraparound informed services, Admission/Management and Program Leadership, Short Term Residential Therapeutic Program, and non-public schools. He is a consultant with the National Wraparound Initiative and serves as the chair of the state of California Wraparound curriculum development workgroup. He is a certified infant/toddler mental health practitioner and a certified state of California trainer for Wraparound. In addition, he has supported over 20 California counties, community based organizations, and California Department of Social Services (CDSS) as a consultant, trainer, and technical support. Recently he has supported CDSS with the implementation of Continuum of Care Reform initiatives such as Child and Family Teaming, Child and Adolescent Need and Strengths and facilitation.
