

# Essential Question: How do we become verification experts?

## *Learning Targets:*

- *I can analyze and evaluate a text based on what I know about the author's and or source's background, influences, and purpose for writing.*
- *I can utilize online tools and verification strategies to determine the reliability and validity of digital content.*
- *I can listen, ask questions, and consider information to generate new ideas and challenge*

Station	Learn	Do
Reading Informational Texts (Teacher Led)	What is triangulation?	Reflect on the idea of "triangulation" Create an infographic explaining that demonstrates the concept. Post it on the Schoology DB.
Reliability, Validity, Credibility, and Bias (Collaboration)	How do we know who to trust?  See direction on the Cyber Sandwich Protocol	<a href="#">Cyber Sandwich Protocol</a> Post your group's slide deck on the Schoology DB.
Evaluating Images (Individual)	What about images?  <a href="#">Play Post Facto</a>	Find a Google image from a recent article that you suspect is fake. Do a reverse image search. Include the original photo as well as your image analysis. Report your findings on the Schoology DB.
