

## The Design Process Deliverable Visuals

### Deliverable

The visual communication to the client

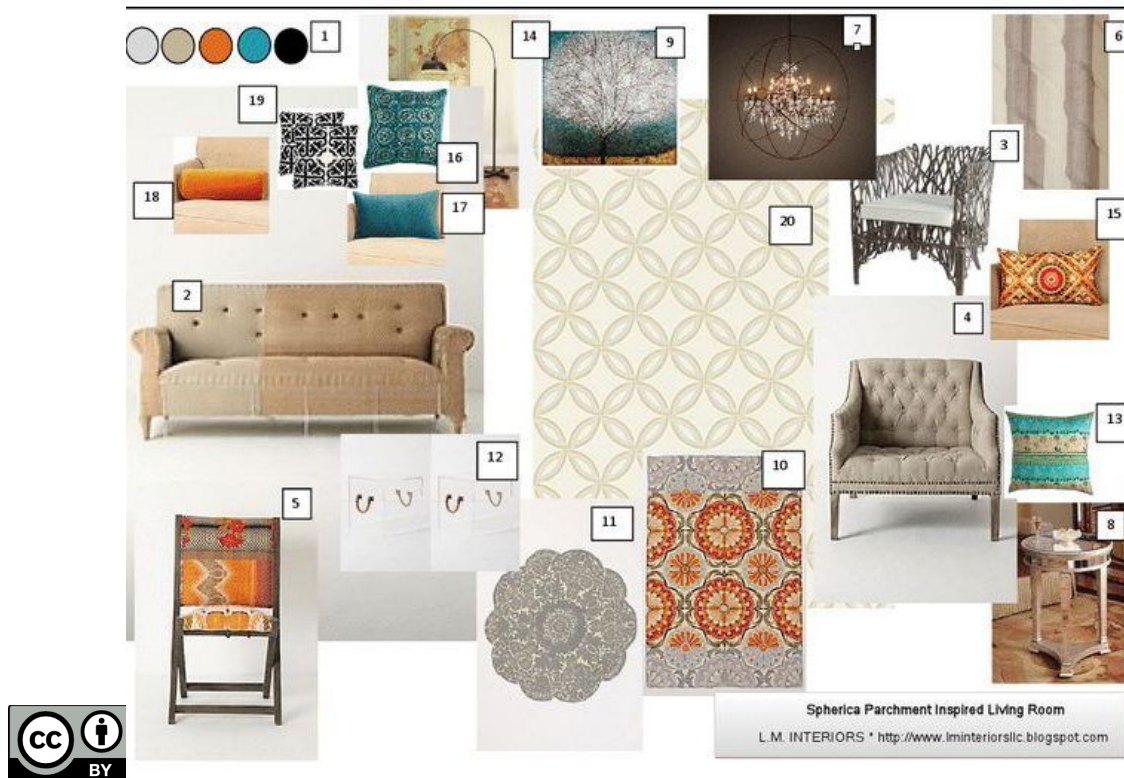

\*Used during the entire design process\*

### Furniture, Fixture and Equipment (FF&E)

Communicated through material (sample) boards, furniture, accessories, lighting, flooring, samples, etc.

\*Used in Programming, Schematic Design, Design Development, Move-In & Post Occupancy Eval\*

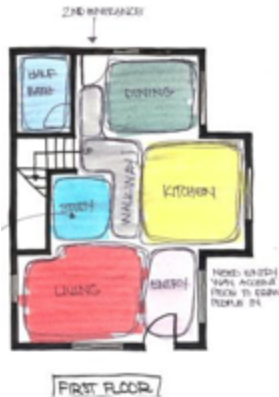

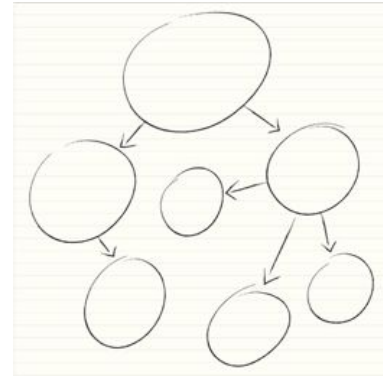

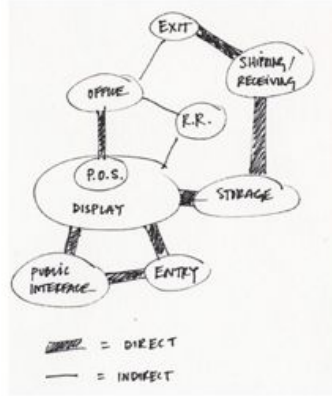

# Skyline Design

Compiled by Nicki Pedeliski

## Bubble Diagrams

2D concept maps that depict **zones** (areas according to function)

\*Used in Programming\*

## Block Diagrams

Are refined from shapes of bubble diagram.

\*Used in Schematic Design\*

## Furniture Plan

A floor plan to scale with furniture and equipment

\*Used in Schematic Design\*

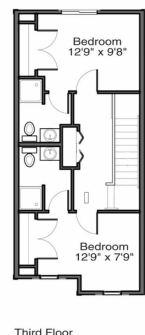

## Floor Plan

A scale diagram of an arrangement of a room (birds eye view)

\*Used in Schematic Design\*

Nicki Pedeliski | Plattview High School | Spring

# Skyline Design

Compiled by Nicki Pedeliski

## Elevation

A depiction of a room/area that shows the front or the side  
\*Used in Construction documents and construction procurement\*

## Traffic Pattern (Circulation Pattern)

The way people move through the space as they live and pass through it

\*Used in Schematic Design\*
